Your Excellency!

Members of the Christians Peace Conference in the German Democratic Republic want to express their concern for nuclear disarmament in Europe. Nearly 2000 of them have signed a statement which reads as follows:

We stand for a moratorium as far as deployment of new middle range nuclear missiles in and for Europe is regarded.

We are organizing church services and prayer meetings for peace during the time of the session of SSD-II. We want to assure you and all the delegates to that important assembly of our intercession.

On behalf of the CPC in the GDR

Carl Ordnung
