

SERBIA: CONTRIBUTION TO BE INCLUDED IN THE REPORT OF THE UNITED NATIONS
SECRETARY-GENERAL TO REFER TO RESOLUTION 79/45 *OBSERVANCE OF ENVIRONMENTAL
NORMS IN THE DRAFTING AND IMPLEMENTATION OF AGREEMENTS ON DISARMAMENT
AND ARMS CONTROL*

The drafting and implementation of agreements on disarmament, arms, ammunition and related equipment control are implemented in Serbia in the context of observing environmental norms.

In addition to the afore-mentioned United Nations resolution, the Report on the implementation of the regional Roadmap for a sustainable solution to the illegal possession, misuse and trafficking of small arms and light weapons and ammunition in the Western Balkans by 2030 includes the question as to whether the surplus firearms and ammunition were destroyed during the reporting period, and if so, whether the process was conducted in accordance with security and environmental standards. This further raises awareness of the importance of adherence to environmental norms in this field.
