NEEDS-BASED CYBER CAPACITY-BUILDING CATALOG

A PHILIPPINE PROPOSAL

PRESENTATION OUTLINE

1 Rationale

2 Elements of the catalog

3 How it looks like

4 Other features

NEEDS-BASED CYBER CAPACITY-BUILDING CATALOG

RATIONALE

For States to:
- independently identify their capacity-building needs;
- match their needs with existing providers;
- study national experience of recipient countries who have availed of the capacity-building programs; and
- provide information on application/inquiry

ELEMENTS OF THE CATALOG

- Capacity needs

- Providers

- Models

- Inquiry/information link to possible providers

HOW IT LOOKS LIKE

CAPACITY NEEDS

Setting up a CERT

PROVIDERS

1. ITU
2. FIRST

Note: Name of provider can be hyperlinked to their website or the provider's web page on the subject capacity-building program

GOOD PRACTICES/MODELS

1. ITU - Bahamas, Barbados, Burkina Faso, Côte d'Ivoire, Cyprus, the Gambia, Ghana, Jamaica, Kenya, Kyrgyzstan, Lebanon, Malawi, Montenegro, Trinidad and Tobago, Uganda, the United Republic of Tanzania and Zambia.
2. FIRST – Australian Cyber Security Centre, Benin Incident Response Team, Botswana National CSIRT

Note: For illustration purpose only, the "ITU-Bahamas et al" and "FIRST- Australian Cyber Security Centre" can be hyperlinked to an article featuring the program of work and/or result of the program or the country focal point from whom potential CB recipients can bilaterally inquire from.

INQUIRY FOR MORE INFORMATION

1. ITU - Apply/ inquire here.
2. FIRST - Apply/ inquire here.

Note: Under this heading, by clicking "apply/inquire" here, similar to a "contact us" button which allows the user to leave a message and his/her contact information, a potential CB recipient would be directly linked to the CB program focal point to directly address his/her inquiry or application.

OTHER FEATURES

- A user-friendly page;
- No hazard of exposing one's cyber vulnerabilities;
- Serves as an empirical basis for the creation of new capacity-building programs;
- Provides a means for a feedback mechanism on capacity-building program implementation; and
- Can be integrated into the Global Cyber Security Cooperation Portal (India's proposal)

NEEDS-BASED CYBER CAPACITY-BUILDING CATALOG

Thank you!
